Claims 3-18, 22-27, 29 and 30 are presented for examination.

Claims 5-11, 14, 27 and 29 are withdrawn from consideration.

The remarks filed on August 19, 2008 have been received and entered.

Claims 3, 4, 12, 13, 15-18, 22-26 and 30 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Burk et al. (US 6,531,504) in view of JP Patent 63002972 for the reasons set forth on pages 2-3 of the office action of July 10, 2008.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks refers to articles to show prostaglandins having alkyl group at the R2 and R3 position having a weak muscular activity on isolated rat uterus and therefore, there is no motivation for a person skilled in the art to add alkyl at the R2 and R3 positions... It is the examiner's position that prostaglandins having weak muscular effect on rat uterus might have stronger effect on the other parts of the body. Applicant's arguments regarding the Japanese patent being published in another part of the world, more than 15 years ago, have been noted. The fact that a reference is published in another part of the world 15 years ago does not make that reference an invalid prior art under 35 U.S.C. 103 (a).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
